活動的改善建議／發展空間

Suggested Improvement / Room for Development

The activity space is sufficient, and a guide has been arranged to provide explanations. However, due to restrictions on the number of participants, each visiting session can accommodate only about 40 individuals, requiring the group to be split into two for two different time slots. Additionally, some exhibition content may be too advanced for older students. Furthermore, the location is situated in the Hong Kong Island area, which is relatively remote, resulting in longer travel times. Therefore, careful consideration is required when planning future visits."
